

Release notes LumaCon collimator

For more info: [www. Lumatech.tv](http://www.Lumatech.tv)

Version 1.06

- Various anamorphice formats added

Version 1.05

- Minor bug fixes
- New option to set a reference-level, making it easier to check for (amongst others) lost-motion
- Store & recall of one BF- measurement. This makes it possible to do a quick check versus a previously stored measurement.

Version 1.0.4

- Minor bug fixes
- Improved (user) error messages
- Option to calculate the Bf offset at any focal-distance.
- Improved Chinese translations

Version 1.0.3

- Nieuwe camera and mount hardware
